

/CORRECTION -- National Coal Council/

PRNewswire

In the news release, National Coal Council Calls for Increased Funding to Accelerate Development of Promising Carbon Dioxide Management Technologies, issued earlier today by National Coal Council over PR Newswire, we are advised by the company that the phone number for the media contact, Robert Beck, should read "202-223-1191" rather than "202-223-1991" as originally issued inadvertently.
